If Frank Lloyd Wright & John Boardman had a baby, this house would be it! Featuring large windows, large rooms & a majestic style, this post and beam construction home can be styled to suit just about any lifestyle! Besides the large kitchen & dining area it sports a large primary suite on the main floor, w/ 2 large bedrooms & a loft upstairs- there is so much more space that additional bedrooms can easily be configured up there. In the lower level, there is a beautiful family room & an additional 2 bedrooms & baths. This stunner is situated w/ large trees & lots of privacy, close to highway access & shopping. The Sellers had purchased the lot next door so it could even be parceled off, or would be perfect for a mother-in-law house, pool & pool house, etc. Great in its current move in ready state, it can also be totally remodeled/reconfigured for a larger family or various needs. Homes this unique w/ wide open spaces are rarely available, so come & see it in person.
