LOCATED IN A VERY DESIRABLE JACKSON NEIGHBORHOOD! This lovely brick/vinyl ranch home has an open main level floor plan including a spacious living room with vaulted ceilings, a stylish kitchen, breakfast bar, eat-in area and separate pantry. The split floor plan offers a primary suite, two additional beds, another bath and main level laundry. The current owner has partially finished approximately 800 square feet of the full walk-out basement, including a nice family room area. There is an additional bedroom and bathroom, mostly complete, with just a shower remaining to finish. Seller will provide an allowance for the basement so new owner can pick their own flooring preference and shower finishes. There is lots of lower level storage and the basement walks out to a patio and fenced backyard. Come take a look! Priced below recent appraisal!
