Lookin' for that perfect mix of "Granny" and late-night DIY with a shot of Frogger everytime you leave the house? ... that one's on up the street. THIS home is drenched in contemporary from top to bottom. The fresh modern gray and cream color palette is accented throughout by marble, granite, stainless steele, new lighting, warm textures of carpeting, and the durability of ceramic tile and engineered hardwood flooring. The systems like roof, electrical, plumbing, and HVAC are in like-new condition. Central and only minutes away from everything a city of this size has to offer... but tucked away on a quiet, kid-friendly, dead end street where even your cat can get out and peep on the neighbors without getting dusted off on the way back home!
