You love a historic home - you want the exposed brick, hardwoods and stained glass. And an epic wraparound porch. But you really want an open concept living area with an updated kitchen and lots of counter space. Well, here ya go. This gorgeous home in the heart of Jackson was built in 1906 with materials that have stood the test of time. Yet the careful updates have combined today's conveniences with yesterday's charm. In addition to the open living, dining and kitchen, you'll find a main level primary and laundry. On the way up the stairs, you'll see the stained glass gleam. Upstairs, you'll find spacious bedrooms and a bath. The unfinished basement provides storage and a garage, and walks out to a privacy-fenced back yard. Walk to shops, restaurants, parades and all that Jackson has to offer. This home is extraordinary, and one you won't want to miss.
