The phrase "one-of-a-kind" was created for this home! Sitting on an expansive lot down a tree line private road in the heart of Jackson is 915 Kimbel Woods Dr. This home has been beautifully remodeled to enhance the unique original design! The main level features wide plank hardwood flooring throughout, a double-sided fireplace, and floor to ceiling windows across the entire back side- overlooking the shady backyard and inground pool. The living room is a cozy retreat with wooden beams across the vaulted ceilings, and custom built-ins around the gas fireplace. And once you see this stunning kitchen you will be dreaming of it for days! The massive center island is a showstopper! Off the kitchen is a large mudroom, laundry and half-bath- perfect for coming in out of the pool. On the other end of the home are 2 nice sized bedrooms with large closets, a full bathroom with a double vanity and tiled tub/shower, and the master en-suite. The master and en-suite is a luxurious space with a custom closet and a spa-like attached bathroom! Downstairs the sellers have added wood look tile throughout making it easy to maintain and functional. There is a massive family room, bonus room, full bathroom, and wet bar. The sellers also added 2 legal bedrooms with large closets and a second laundry room- making me this the ideal space for a teen,
