Cozy fireplaces for cold days, a beautiful in-ground pool for the hot days - this gorgeous home in Jackson's Bent Creek Subdivision has it all. Hardwoods, a layout that's open (but not too open!) and ceilings that soar are among the first things you'll notice when you step in the foyer. The living room focuses around the gas fireplace, with lots of room for relaxing. To the left, the dining and kitchen areas offer ample space for seating, granite countertops with room to work, and plenty of storage. Step outside to the covered deck and enjoy the outdoors, rain or shine. The split bedroom plan offers laundry and the primary suite on one side and the additional two bedrooms and bath on the other. In the primary suite you'll find tray ceilings and a barn door leading to the large primary bath. There you'll find separate tub (yes, it's pink but they make great spa paint if that's not your thing!) and a custom walk-in shower, double vanity and a large walk-in closet. An office rounds out the first floor, but wait until you see the lower level! A huge family room with electric fireplace, craft or seating area with built-ins, and a few steps outside to the pool will have you ready to play. A third bath and fourth bedroom can be found there, as well as a huge unfinished storage area with John Deere doors to the back yard. The pool has a new liner and newly painted extra tall privacy fence. So
