4 Bedrooms | 2 Bathrooms | 1,932 Sqft

Such a rare find in Jackson. Quiet corner-lot in the established Jackson neighborhood of Indian Hills with mature trees shading the lawn. Less than 5 minutes from some of Jackson's favorite restaurants, shopping & quick access to I-55. Huge space at over 1900 square feet all on one level. And so versatile with large mudroom, FOUR bedrooms, 2 bathrooms, GIGANTIC family room that can hold a massive sectional & big screen for movies/games or even a pool table. Front bedroom would make a great office for a home business with its own separate entrance or even for home-schooling with a wall-to-wall closet for storage. Every wall in this home has a fresh coat of neutral paint. Large casement windows let in all the natural light. Kitchen boasts freshly painted kitchen cabinets, new hardwood, brand-new countertops AND a brand-new dishwasher. Large very functional mudroom with WD tucked away in their own large closet. Over-sized garage, tons of easily accessible attic storage, multiple closets. So much functionality and storage and so much square footage for the price.
