Opportunity awaits with this 2-bedroom, 2-bath home situated on a 0.26-acre lot! Built in 1900, this two-story property is full of character and timeless charm, showcasing the craftsmanship and details you simply don't find in newer homes. From the inviting front porch to the original woodwork, tall ceilings, and hardwood floors, there are glimpses of the home's historic beauty throughout. The home features generously sized rooms, a functional floor plan, and a cellar basement providing additional storage space. With two full bathrooms and a flexible layout, there's plenty of potential to reimagine the space while preserving its classic appeal. Outside, the lot offers room to expand, garden, or create your ideal outdoor setting. This property is in need of repairs and updates, but for the right buyer, it presents an excellent opportunity to restore and highlight the unique character of an older home while building equity. Whether you're looking for your next renovation project, investment property, or a home to customize from the ground up, this one is full of possibilities. Property is being sold as-is.
