Rare opportunity to purchase an entire brick duplex offering two separate units under one roof ideal for investors, multigenerational living, owner-occupants, or even friends wanting to purchase together while maintaining independent living spaces. One side offers convenient slab construction with fresh paint and comfortable single-level living, while the other includes a full walkout basement with exceptional storage, workshop potential, future expansion possibilities, and a bathroom rough-in stubbed for a potential third full bath. Both units feature attached 2-car garages, spacious layouts, oversized rooms that feel far larger than expected, and generously sized living areas with vaulted ceilings that create an open, airy feel throughout. Each unit includes a true primary suite complete with a walk-in closet and private full bath, along with oversized secondary bathrooms offering substantial vanity and storage space. Large kitchens with center islands, abundant cabinetry, breakfast areas, and pass-through openings provide both functionality and connection to the main living spaces. Main-level laundry adds everyday convenience in both units. Private outdoor spaces include elevated decks and a covered patio area overlooking a mature, shaded setting beneath established trees.
