4 Bedrooms | 5 Bathrooms | 4,600 Sqft

Tucked away on 2.14 wooded acres, this extensively updated home offers a setting that's hard to find. It feels like you're out in the country while still being just minutes from shopping, restaurants, and schools. The mature trees and wooded surroundings provide a level of privacy that's uncommon for an in town property. With 4 bedrooms, 3 full bathrooms, 2 half bathrooms, and laundry hookups on both the main level and in the basement, there's plenty of room for family, guests, and entertaining. The main level features a spacious family room, an informal sitting room, and a large formal dining room. Brazilian teak flooring, custom Beussink cabinetry, granite countertops, and quality finishes can be found throughout. Just off the family room is a finished four season sunroom complete with a mini split, wet bar, sink, mini refrigerator, hood fan, and gas hookup for grilling. Step outside to the composite deck overlooking the wooded backyard or relax on the new paver patio with a fire pit. The landscaping has been professionally redesigned by Bloomfield Landscaping and completes the outdoor living space. The primary suite includes a beautifully remodeled bathroom with a tiled glass shower, freestanding soaking tub, double vanity with granite countertops, and custom Beussink cabinetry. The walkout basement adds even more living space with LVT
